Discover Creative Careers Cookie Policy

Our site uses cookies to give you the best browsing experience, to create content, adverts and offers personalised to you, and to analyse website use. In alignment with Google's Business Data Responsibility site, we ensure transparency and control over your data. You can update your preferences at any time on the bottom left of your screen.

This cookie policy explains how Futures For All uses cookies to recognise you when you visit our website. It outlines the types of cookies we use, the reasons for using them, and your rights regarding controlling their use. We are committed to respecting and protecting your privacy. Any data collected through cookies is used responsibly and in compliance with our privacy policy, ensuring that your personal information remains secure.

Why do we use cookies?

We use cookies on the Futures For All website to enhance your browsing experience, making it more efficient and personalised. Cookies help us to tailor specific areas of the website to your needs and preferences. For more detailed information on the cookies we use, see the table below.

Our website also uses analytics tracking tools to support Google Analytics Demographics Reporting. If you prefer, you can opt-out of Google Analytics for advertising purposes via Google's Ads Settings.

Strictly necessary cookies

These cookies are essential for the basic functioning of our website and cannot be disabled. They do not store any personal information that can identify you.

These cookies are used for tasks such as remembering your privacy settings and retaining any information you input in online forms. Although you can configure your browser to block these cookies, please note that certain parts of the website may not function correctly without them.

Note that Youtube and Vimeo cookies will only be set if you use a page that requires this functionality.

Cookie Provider	Cookie Name	Description
FormAssembly	FORMASSEMBLY	This cookie is set by FormAssembly to support core form functionality, such as session continuity and security, while a visitor completes an embedded form.
FormAssembly	CAKEPHP	This cookie is set by FormAssembly (built on the CakePHP framework) to maintain a user's session state while interacting with the embedded form.
Craft CMS	CraftSessionId	Craft CMS relies on PHP sessions to maintain sessions across web requests. That is done via the PHP session cookie. This cookie will expire as soon as the session expires.
Craft CMS	CRAFT_CSRF_TOKEN	A cookie named CRAFT_CSRF_TOKEN will be created to facilitate CSRF protection. It will expire as soon as the PHP session expires.
YouTube	VISITOR_INFO1_LIVE	May enable personalised recommendations on YouTube based on past views and searches, and is also used to detect and resolve problems with the embedded player.
YouTube	YSC	Ensures that requests within a browsing session are made by the user and not by other sites, helping to prevent malicious sites from acting on a visitor's behalf without their knowledge.
YouTube	PREF	Registers a unique ID used by Google to keep statistics of how the visitor uses YouTube videos across different websites.
YouTube	GPS	Set on mobile devices when an embedded video is played; used to remember the visitor's geographic location.
YouTube	IDE	A DoubleClick/advertising cookie that may be set by YouTube embeds, used for personalising and measuring ads shown to the visitor.

Vimeo	player	Saves a visitor's settings before they play an embedded Vimeo video, so their preferred settings are remembered the next time they watch one.

Vimeo	vuid	Collects information about a visitor's actions on websites that have an embedded Vimeo video.
Vimeo	player_clearance	Considered essential to the secure operation of the Vimeo embedded player.
Vimeo	cf_clearance / _cf_bm / _cfuvid	Cloudflare cookies considered essential to the secure operation of the Vimeo player; the only cookies set when a "Do Not Track" parameter is applied to the embed.

Performance cookies

Performance cookies help us understand how users interact with the website by tracking the number of visitors and the pages they visit. These cookies allow us to monitor website performance, identify popular pages, and improve the user experience.

You can still access the website without performance cookies. However, we won't be able to track your visit or monitor the site's performance to make improvements.

Cookie Provider	Cookie Name	Description
Google Analytics	_ga	Maintains session data to analyse site performance and identify areas for improvement.
